COOL-ICE CI

Cool-Ice CI series ice boxes come in six different sizes, from 43 to 111 litres. Their spacious interior is well organised by a modular storage system consisting of wire baskets and dividers. Sturdy carrying handles on both sides facilitate transport. Practical accessories add the finishing touch.

COOL-ICE WCI

Cool-Ice WCI series ice-boxes owe their popularity to their handy size and a practical carrier strap. Available in three sizes: 13, 22 and 33 litres.

If possible, store the Dometic iceboxes in cool surroundings for several hours before use and keep them out of direct sunlight. If being filled with drinks or groceries, we recommend chilling the items beforehand. Standard freezer packs or ice cubes are suitable as coolants. Air will compromise the cooling capacity and shorten the duration of cooling. Therefore avoid opening it unnecessarily and pack the boxes as full as possible.
